Where a conflict is identified (General or Material), the Conflict of Interest declaration form from Council's Document Hub must be completed and submitted to Council's Governance and Procurement Teams and will be held on a central register.

Requirement	Approach
Council's procurement activities will be carried out on the basis of obtaining Value for Money. This means minimising the total cost of ownership over the lifetime of the requirement consistent with acceptable quality, reliability, accessibility and delivery considerations. Lowest price is not the sole determinate of value for money, and Council is not required to accept the lowest tender. Achieving best value also requires challenging the need for the procurement and the way in which the service may be reconfigured to achieve improvements in service delivery, comparing service provision options against all those available, consulting with key stakeholders and ensuring competition in the open market. Achieving best value for money must be the basis of all procurement decisions within Council.	<ul> <li>This will be facilitated by:</li> <li>developing, implementing and managing procurement approaches that support the co-ordination and streamlining of activities throughout the lifecycle;</li> <li>effective use of competition;</li> <li>considering collaborative opportunities and using aggregated contracts and SOAs where appropriate;</li> <li>identifying and rectifying inefficiencies in procurement processes;</li> <li>developing cost efficient tender processes including appropriate use of e-solutions;</li> <li>Council staff responsible for providing procurement services or assistance within Council providing competent advice in terms of available approaches and agreements; and</li> <li>working with suppliers to create relationships that are professional and productive, and are appropriate to the value and importance of the goods, services and works being acquired.</li> </ul>

#### Achieving Value for Money

#### **Internal Controls**

Council have a framework of internal controls over procurement processes that ensure:

- more than one person is involved in and responsible for a transaction end to end;
- transparency in the procurement process;
- a clearly documented audit trail exists for procurement activities;
- appropriate authorisations are obtained and documented; and
- systems are in place for appropriate monitoring and performance measurement.

#### **Purchase Orders**

Purchase orders (electronic) must be raised prior to delivery of goods or services or commencement of works. A copy of the purchase order must be provided to the supplier and the purchase order number has to be quoted on their invoice. This ensures that invoices received by Accounts Payable are easily identified and directed to the appropriate authorising Council Officer and approved for payment in a timely manner.

Further details regarding the exemptions and authorisations required for purchase orders is contained within Council's Accounts Payable Policy and Procedure.

#### **Collaborative Procurement**

Council officers will seek to use collaborative procurement opportunities when procuring goods, services and works in order to take advantage of economies of scale in accordance with Act Section 108(3)(c) by considering aggregated purchasing arrangements with:

- other Councils and/or Agencies;
- Municipal Association Victoria Procurement (MAV);
- Procurement Australia (PA formerly known as MAPS Group and Strategic Purchasing); or
- Victorian State Purchasing Board (whole of Government Contracts).

When a report for a procurement is presented to Council for approval, it will include information relating to any collaborative arrangement opportunities that were explored as part of the procurement process.

#### **Exemptions and Exceptions from Market Engagement**

It is recognised and understood that in some circumstances quotations and public tender processes will be impractical to seek, obtain and undertake. Some of these circumstances include:

- Utilities Infrastructure (Power Network providers, Water Authorities, etc);
- Other Government Entities or third parties;
- Extension of contracts while Council is at market;
- Operating Leases;
- Emergency works and circumstances;
- Existing IT hardware and software (Annual Support Fees, development, upgrade);
- Exempt payments and professional services unsuitable for tendering (statutory insurance premiums (inc workcover, stamp duty, etc), legal services, Councillor Allowance, Community Grants, Trust, etc);
- Statutory and Operational Compliance (MAV, DELWP, Vehicle Registration, Postage, Payroll, Levies (FSPL));
- Plant and Equipment Servicing and Spare Parts (To maintain warranty, genuine parts/service by recognised manufacturers required);
- Critical/Essential service coverage (Eg: roadside waste)
- Developer procured infrastructure works that includes a council contribution for the upgrade or renewal of a council asset;
- Other extraordinary circumstances as approved by CEO.

Exemptions outside those listed above, the employee responsible must obtain approval from the relevant General Manager or Executive Manager in the form of the attached application form which outlines why the officer is seeking requirement to not obtain quotes. This process must have the relevant General Manager's or Executive Manager's approval before the procurement for service/goods is acquired. This clause doesn't apply to the requirement to tender in

accordance with the tender thresholds outlined within this Policy. The Exemption approval form must be signed in accordance with that Manager's financial delegation.

#### Software

If new software is being considered as part of any procurement process, the MSC vendor security assessment process must be followed including the completion of an information security assessment. In addition, any systems being implemented must consider:

- SSO Single Sign On;
- SaaS Software as a Service (not on premise);
- Victorian Protective Data Security Framework (VPDSF); and
- Australian Standard ISO 27001 Information Security Management.

#### **Cumulative Spend**

Officers should take procurement thresholds into consideration where significant sums are spent in aggregate with one supplier or on one service, it is necessary to structure procurement proposals in order to achieve greatest value and supplier performance by leveraging cumulative spend, rather than treating each discrete arrangement as a separate procurement process. Council has determined that the cumulative expenditure to a supplier or for a specific good/service for a period up to three years is to be considered.

#### **Support of Local Business**

Council is committed to generating, supporting and buying:

- from local suppliers;
- from businesses outside the boundaries of MSC, who purchase goods and/or services from local suppliers and/or who use local labour;
- has a preference for Australian made products and goods.

Support to Local Business and Australian made products and goods will be achieved through local price preferencing of 5% to obviate additional fees and charges (E.g.: cartage, transport, postage and handling). Every reasonable effort will be given to seek local quotations and to ensure that local suppliers are aware of current and upcoming tenders.

In addition to the price preferencing, responsible officers may apply a scored evaluation criteria to recognize suppliers who are local, utilizing local product/service or employing locals through detail submitted on a Local Content Response schedule.

#### **Contract Management**

- Successful tenderers name and contract value will be posted on Council's web page after each Council meeting unless Council believes that this will pose a breach of commercial in confidence
- Where a panel of contractors are appointed Council will utilise appointed Suppliers for the purpose in which the panel was established but reserves the right to seek quotes for more significant project work outside of the panel
- Contract Managers will regularly monitor the spend with each supplier to ensure balanced allocation of work

#### **Payment Terms**

Council's standard payment terms are 28 days from the date of the invoice and 14 days for local suppliers. Council's payment terms override supplier's terms and the supplier should be informed of this at the time of engagement. Alternative arrangements may be made within contract documents.

	Council's preferred method of payment is Electronic Funds Transfer.
