

## Transition Thursday - Numeracy Focus

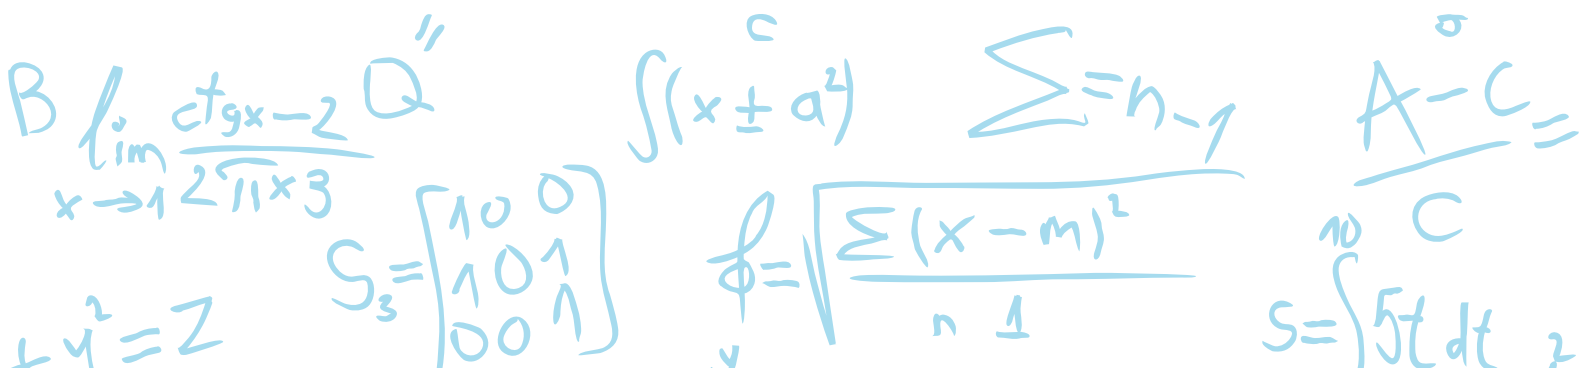

Learning opportunities can be created over the holiday period. Try finding ways to spark interest and joy in children to build their knowledge of numbers.

### What could this look like at home?

- Counting letterbox numbers when out walking.
- Reading out the number plates on cars.
- Playing board games that encourage counting, ie: snakes and ladders.
- Involve your child in creating shopping lists and following these when shopping.
- Following recipes and cooking together.
- Finding shapes around the house/park and see which shape is most/least common?
- Keeping a list of the most seen car colors when out driving

### Benefits for your child:

- Number recognition.
- Building general numerical knowledge and awareness.
- Understanding the benefits of following a procedure.
- Record and track information obtained.
- Greater awareness of surroundings.

Handwritten mathematical formulas in blue ink:

- $\lim_{x \rightarrow 1} \frac{ctgx - 2}{2\sqrt{11} \times 3}$
- $Q''$
- $\int (x \pm a)^c$
- $\sum = n - 1$
- $\frac{A - C}{C} =$
- $S_3 = \begin{bmatrix} 1 & 0 & 0 \\ 1 & 0 & 1 \\ 0 & 0 & 1 \end{bmatrix}$
- $\phi = \sqrt{\frac{\sum (x - m)^2}{n - 1}}$
- $S = \int_0^{10} 5t dt$
- $x^2 + y^2 = z$
